

## FOSTERING LIFELONG LEARNING

Librarians teach in the health professions education curricula and across the health system. We share our expertise in finding the best evidence, managing information, and getting published.

### Classes

In fiscal year 2018, the library reached **4,942** participants in **169** classes. **101** classes were taught as part of a health professions curriculum.

### Consultations

Librarians meet with individuals and small groups to provide customized research assistance. In fiscal year 2018, we met with **1,070** individual faculty, staff, and students in **851** sessions.

### Most Popular Class and Consultation Topics

Most Popular Topics:

- ◆ Evidence Based Practice
- ◆ Systematic Reviews
- ◆ PubMed/CINAHL
- ◆ Reference Management
- ◆ Literature Searching

## PARTNERING IN EVIDENCE

Librarians are experts in finding information. We leverage our knowledge to improve publications, animal research, and patient care at Duke Health.

### Systematic Reviews

Medical Center Librarians partner on over **50** systematic or comprehensive reviews per year.

In the last 10 years, librarians have been acknowledged or co-authors on **61%** of the Duke-authored systematic reviews in our repository.

### IACUC

Literature searches are conducted to find ways to minimize painful and distressing procedures for animal research.

Librarians conducted **90** searches for protocols and amendments during the last fiscal year.

### Quality Improvement Initiatives

Health system care redesign teams are interprofessional and include staff with unique expertise and experience. Care redesign projects have included lung transplant, delirium, imaging, and inpatient mobility.

Librarians have been embedded into **19** teams since the work launched.

## PROMOTING DISCOVERY & INQUIRY

Librarians navigate the scholarly ecosystem and enable researcher productivity.

### Duke's Research Impact

The Library maintains a database of over **40,591** Duke Health authored publications from 2009 to present. It is used to analyze co-authorship and publishing trends at Duke.

### NIH Public Access Policy Compliance

We helped protect **\$459,778,087** in fiscal year **2018** of NIH funding by ensuring compliance with NIH Public Access Policy.

Duke averages **98%** compliance for **18,758** publications. (source: report.nih.gov)
